

TRACKMAN SIMULATOR GUIDE

When You Arrive

1. Observe the health and safety procedures while operating any of the equipment and swinging in the simulator. These can be found in the simulator itself, on your booking confirmation and can also be accessed in the golf shop
2. When a member of the golf team has turned on the necessary equipment a screen will display the following image on the computer, seen below.

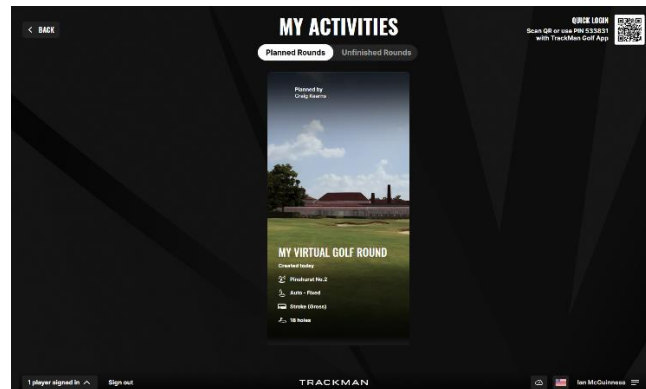

3. Using the Trackman App on your mobile device, click on the “Quick Login” button as indicated below with the blue arrow. It is located at the bottom of the screen.

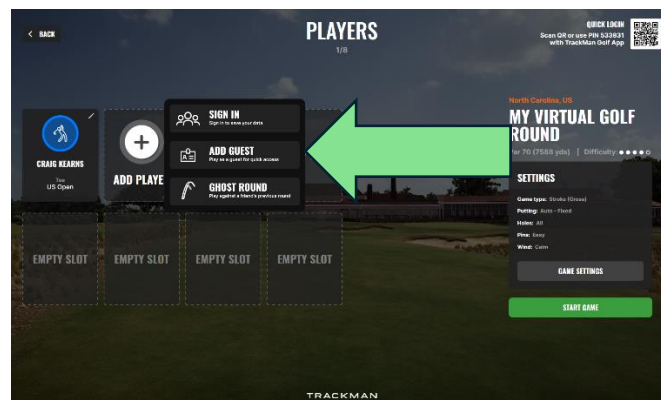

4. Using this feature will allow you to scan the QR Code which is located in the top right hand corner of the computer screen seen above indicated by an orange arrow
5. When you have successfully logged into the system you can then access the “My Activities” option which is located on the top left hand corner of the computer screen, seen above indicated by a green arrow. Click on the “My Activities” and it will bring you through to your “Planned Rounds” which you have set up on your Trackman App.

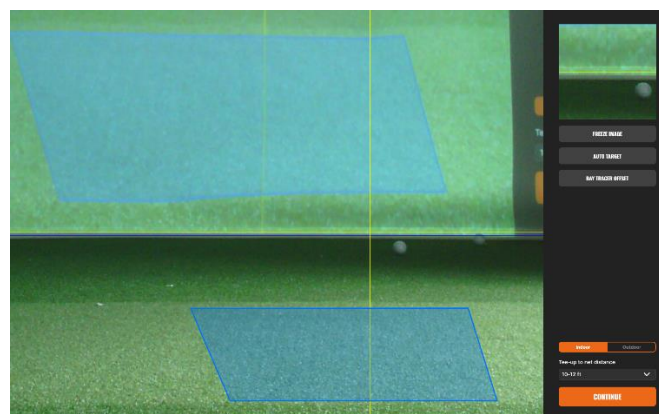

6. In the “My Activities” section you will find all “Planned Golf Rounds” just like the image below . Click into the round you would like to play and then “Continue”.

7. You can then add your playing partners up to a maximum of 4, add their name and handicaps using the “Add Guest” option indicated by the green arrow below.

8. Finally ensure that the intended target line is set correctly in order for the shots on the simulator are taken inside the blue box and along the yellow line following into the screen as seen below.

Once all of these steps have been completed the simulator will automatically bring you to the first tee shot. If you have any further questions don't hesitate to contact the Golf Shop
